PROFESSIONAL EXPERIENCE

Project Manager

Jul 2009 – Feb 2017

Cyber Managers Software Services Pvt. Ltd, Mumbai

Key responsibilities -

- **Business Analysis:** Interacting with clients, gathering & analyzing business requirements, developing documentations like BRD, FSD, DFD, proposal & milestone document etc. as required for decision making.
- **Project Management** – Design & develop the architecture of the project, translating the requirements, process flows & deliverable plans to the concerned teams. Managing development teams and deliverables.
- **UI Visualizing, Design & Development** – Visualizing & designing user interfaces and related graphics for web and mobile applications using Photoshop & Illustrator and converting them to responsive html's.
- **Application Development** – Coding the core architecture & building communication flows between frontend & backend applications. Translate the coding pattern to the development teams & assist for code & design issues. Full-stack development on AngularJS, PHP, MySQL/SQLServer.

Major projects worked on –

- **Service Connect** is a customer service portal & native mobile app (iOS & Android) for Fullerton India. My key responsibilities included the overall management of the project along with coding the web portal on AngularJS.
- **ICICI Pockets Wallet App (v1)** for iOS & Android. I co-managed the project taking care of the iOS development. The responsibilities also involved iOS development on ObjectiveC.
- **IndusInd Bank OnTheGo-Social Banking** – enabled banking services using hashtags directly via Twitter & Facebook messenger. I was involved in the development of data channel at the social platform end and worked extensively on twitter & Facebooks rest & streaming api's.
- **iAlumni** - Web portal & native mobile app (iOS, Android) for enabling critical financial & directory services for retired employees. My key responsibilities included the overall management of the project along with coding the web portal on AngularJS.

Other projects undertaken – iTrack (ICICI), Kraman (Kotak Mahindra Bank), Virtual Wanderer (Cox & Kings), Croma AR, LogicSuite (HUL), Xpand (ABG)

Freelance Application Development

Skillsmantra.org – is a registered assessment body under PMKVY and conducts pan India assessments for associated training programs. I have been associated with the firm since Nov 2014 as a technical consultant & freelance developer and built an online platform for managing & conducting such assessments as allocated by the government councils. The operations team have been aligned according to the system and the platform has assessed over 40K candidates till date pan India. The complete ecosystem consists of three comprehensive websites on PHP-CI-MySQL and a native android mobile app.

AreYouAFoodie.com – Its a wordpress blog built for Siddhartha Paleja - an avid food enthusiast, critic and a close friend, to project his passion for food & food-photography.

www.theNailSpa.in – is a website built for Fingertips- a first of its kind business venture that focusses on Nail Art and related spa services.
